SERVICES

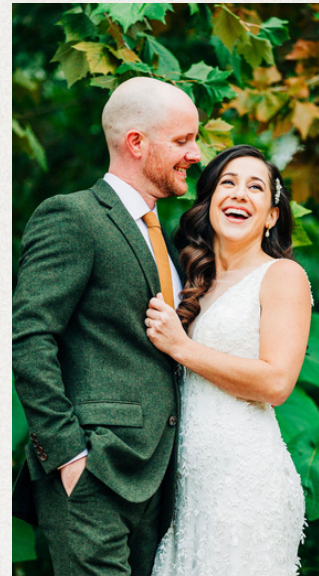

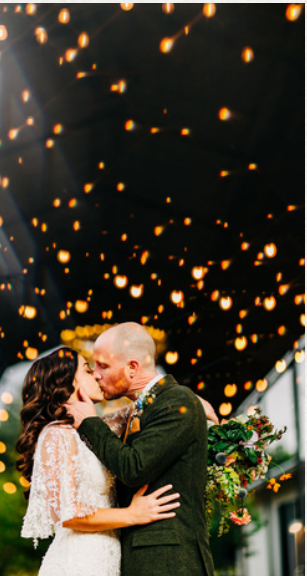

Moon Age Weddings

As soon as a client inquires, we get to know them and their visions for the big day, which means a more personalized experience for them.

To make the bridal beauty process special and memorable, we created a unique approach.

In comparison with other companies, we schedule a lot more time. It takes time to make sure your hair and makeup are flawless. *We're committed to that.*

We also request photos from everyone. Having photos of all the guests allows us to create custom plans for each individual, taking into account their facial features, skin tone, and hair type. This allows us to create a look that is perfect for each individual, ensuring that everyone looks their best.

GLAD YOU ASKED

Let's discuss the details and see if Moon Age Bridal is right for you. Tell us how many people will be attending and how much time you have allotted for hair and makeup.

What are the key details, such as the *location where we will be working*? Will it be an airstream at Springdale Station or a spacious hotel suite?

Other significant factors include what time of day is your ceremony? Is it going to be early afternoon or late in the day?

What about the photographer's first shots?

By gathering information from you, we can determine whether our services are a good fit for the wedding, or if we need to hire more people.

THANK YOU
