ABOUT

# Moon Age

A unique approach is created to make the bridal makeup process one that is special and memorable.

Questionnaires are used to help me get to know each bride and their visions for their big day. They enable me to provide a more personalized service.

In comparison with other companies, I schedule more time than most when creating a makeup look. It takes time to make sure you look absolutely flawless and I'm committed to that.

## GLAD YOU ASKED

Let's discuss the details and see if Moon Age Bridal is right for you. Tell me how many people will be attending and how much time you have allotted for hair and makeup.

What are the key details, such as the location where I will be working?

Other significant factors include what time of day is your ceremony. Is it going to be early afternoon or late in the day?

What about the photographer's first shots?

By gathering information from you, helps me determine whether my services are a good fit for the wedding, or if I need to hire more artists to help.

# Thank You
